tesa self adhesive tapes are used in many sectors to solve a variety of problems. Our publications contain numerous examples of a variety of tesa products and their applications. Each tesa product is designed to solve a particular range of applications. Nevertheless, experience has shown that even for one and the same product the exact requirements may differ from case to case. We, therefore, recommend that you carry out your own tests in each case, to confirm that the tesa self-adhesive tape which you envisage using is appropriate for your particular application. The advisory section of our technical service department will be happy to assist. All information and recommendations are given by us in good faith, on the basis of practical experience, but without warranty.
