

FIRST BASE 3

BUMP PROTECTION

First Base 3

A REVOLUTION IN BUMP PROTECTION.

In 1997, following extensive customer research, industry pioneers Scott Safety introduced the original baseball style bump protection solution, First Base. Bump protection evolved again in 2003 with the launch of First Base+ as further research determined the need for improved aesthetics and comfort levels. Today, the new First Base 3 provides unprecedented levels of fit and comfort, taking stability, protection and wearer acceptance to new levels.

At the core of the First Base 3 revolution is the unique, patented shell designs, ergonomically shaped for comfort and protection. The shells are complemented by a range of stylish and durable fabrics to suit any need.

COMFORT

Delivered by the patented, highly breathable, micro perforated shell with indirect top ventilation system and humidity reducing, hypoallergenic fabrics with advanced wicking fabric sweatband to draw moisture away from the skin.

STABILITY

The adaptive shell design contours uniquely around the head for a stable, individual and comfortable fit. The elasticated adjustment strap positions beneath the occipital bone for increased stability.

PROTECTION

The unique shell designs deliver optimum protection and are shaped over the ear to provide enhanced compatibility with other forms of PPE.

STYLE

Stylish aesthetics ensure wearer acceptance.

3 SOLUTIONS TO SUIT ALL NEEDS

CLASSIC

Timeless lightweight cap with Micro-fibre fabric and flexible shell design

XTRA

Traditional durable cap with Polyester/Cotton fabric and full shell design

ELITE

Modern dual colour Micro-fibre cap with enhanced visibility and flexible shell design

UNIQUE SHELL

delivers comfort and protection

Full shell option offers increased protection without compromising comfort

Foam channel improves ventilation

KEY FEATURES

- Unprecedented levels of fit and comfort
- Patented micro perforated shell, with indirect crown ventilation system, permits maximum air circulation and reduces humidity
- Unique flexible or full shell designs provide an optimum fit
- (52-65cm head size)
- Up to 12 colour options
- Standard, reduced or micro peak options
- Shaped for stability
- Over ear design improves individual fit and compatibility with other PPE
- Wicking fabric sweatband draws heat and moisture away from the skin reducing humidity and improving comfort
- Machine washable fabrics
- CE marked to EN812: A1

Wicking Sweatband

Elasticated Adjustment

Optional Belt/Bag Clip

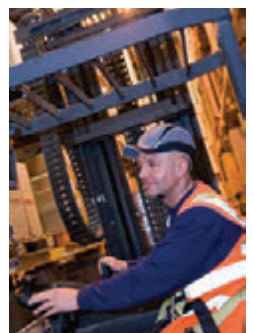

CLASSIC

A timeless, lightweight cap

First Base 3 Classic has been developed to meet the everyday needs of industry while promoting a positive corporate image. The Classic provides key features such as:

- Timeless look and appeal
- Single color design available in nine color options
- Lightweight Micro-fibre fabric reduces humidity and permits air circulation
- High-visibility versions available including waterproof, EN471-specified fabrics with 15mm reflective tape.
- Side mesh ventilation enhances breathability
- High visibility option for enhanced user safety
- Utilises a unique “flexible” shell design to provide an optimum fit

XTRA

A traditional, durable cap

First Base 3 Xtra combines durable, workwear fabrics with the enhanced protection offered by a full shell design. The Xtra provides key features such as:

- Traditional look and appeal
- Single color design available in three color options
- Durable Polyester/Cotton blend fabric
- Side mesh ventilation enhances breathability
- Reduced peak length for enhanced upwards vision
- Utilises a unique 'full' shell design to provide enhanced protection

ELITE

A modern, dual colour cap

First Base 3 Elite delivers a modern and appealing look while offering the enhanced visibility of 360 degree reflective piping. The Elite provides key features such as:

- Modern look and appeal
- Stylish dual color cap design in three standard color combinations
- Lightweight Micro-fibre fabric reduces humidity and permits air circulation
- Side and top mesh ventilation enhances breathability.
- 360 degree reflective piping enhances visibility and safety
- Utilises a unique 'flexible' shell design to provide an optimum fit

MAKING OUR CAP YOUR CAP

If the finest details of your company's identity and visual outlook mean everything, then why not customise your cap choice to meet your exact requirement? Choosing a First Base 3 bump protection cap allows you more freedom than ever to enhance your corporate identity. For each cap model there are 3 levels of customisation and it really is as easy as **1, 2, 3** to create a unique solution.
