

industrial boxes 24300, steel IP 55

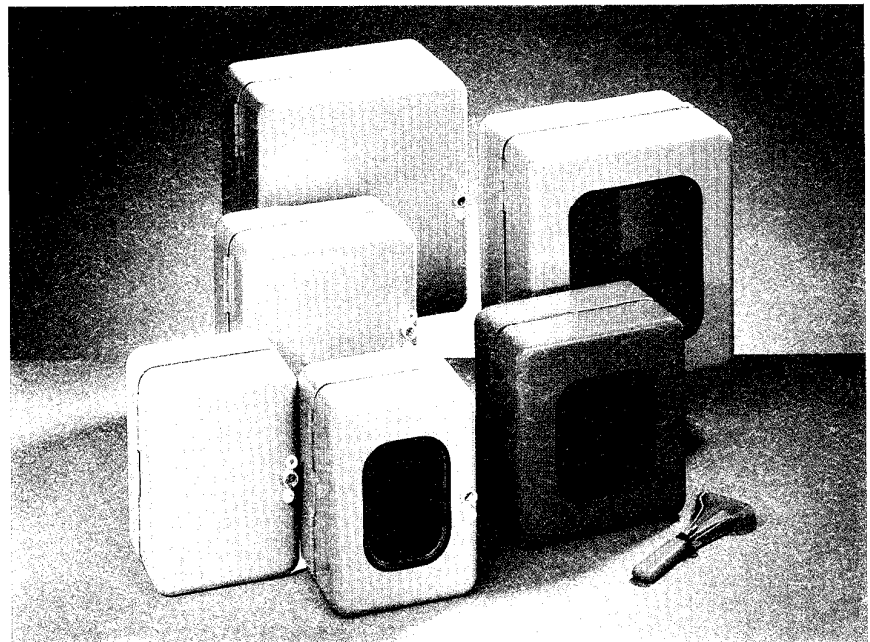

safety boxes

technical characteristics

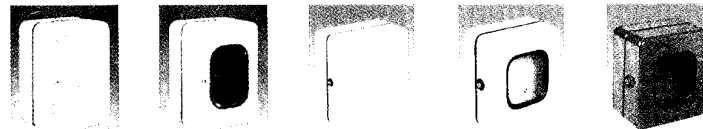

- Resistance to external mechanical impact: IK 09.
- Textured epoxy polyester powder paint finish, colour grey RAL 7032 or red RAL 3000 for safety enclosures.
- Closure by screw or side key lock with 3 mm double bar insert. Possibility of mounting lock with key 1242E using kit ref. ENN51360 and handle ref. ENN51259.
- Sealing cap fitted as standard.
- 4 nuts welded in rear of enclosure. These enable attachment of a mounting plate (supplied as an accessory) or a customised chassis
- Polyurethane sealing gasket.
- M 6 x 8 earthing screw on both body and cover to maintain continuity.

applications

- Safety and alarm systems (fire alarm for example) which can be fitted with mounting plates and modular equipment

boxes selection table
