Preferred Connector Products

JAE

JAE Electronics, Inc.

For Additional Information Visit www.jae-connector.com

Japan Aviation Electronics Industry, Ltd. (JAE) is an international manufacturer and supplier of electronic components and systems. For over four decades, JAE has provided the electronics industry with solutions to complex design requirements. Since its founding, the Company has strived to contribute to society through market-driven, technology-based global business operations under the philosophy: "Technology to Inspire Innovation."

With worldwide and world-class manufacturing certified to ISO 9001 and QS 9000, JAE has made the commitment to meet the global requirements of our customer. In addition to a network of state of the art manufacturing facilities, JAE has technical service offices located around the world, staffed with experts in connector design and application.

This catalog contains a select overview of JAE Connector Products. For in-depth information on our complete product line, and information on new developments, visit JAE's online catalog at www.jae-connector.com.

Innovative design, quality oriented manufacturing, commitment to our customers and sensitivity to the environment assures JAE's leadership position in the 21st century.

- All JAE connector products shown in this catalog are lead free.
- We reserve the right to modify designs in order to improve quality, keep pace with technological advancements or meet particular requirements in production.
- Products shown in this catalog are made for the applications specified. However, if the above-mentioned products are to be used in aerospace devices, marine cable-connection devices, atomic power control systems, medical equipment for life-support systems, or any other specific application requiring extremely high reliability, please contact JAE for further information. Recommended Applications: Computers, Office Machines, Measuring Devices, Telecommunications Devices (Terminals, Mobile Devices) AV Devices, Household Applications, FA Devices, etc.
- Refer to end of catalog for alphabetical index of products.

AA03 SERIES CONNECTORS

0.40mm (.016") Contact Spacing, PCB to PCB SMT Connectors

FEATURES

- 0.4mm (.016") contact spacing; double row; 22 to 80 positions; stacking height: 1.0mm (.039")
- High abrasion resistant contact structure provides increased contact reliability
- Secure hold-down prevents insulator breakage or lift-off from FPC (receptacle side)
- Separate 2-point contact design resists twisting stress
- Lead-free and nickel barrier in contact prevents solder migration
- Connectors for both inspection jigs are provided for both plug and receptacle
- Standard products (3,000 pieces/reel) and inspection jig products (300 pieces/reel) supplied on emboss tape

Connector Profile (Ref.)

The AA03 Series connectors have 0.40mm (.016") pitch, and 1.0mm (.039") height board-to-board connection that is ideal for slim, low-profiled information communication devices such as mobile phones, LCDs and PDAs, with high density mounting requirements.

GENERAL SPECIFICATIONS

Number of Contacts	22, 30, 36, 40, 50, 64, 80 pos.
Contact Spacing	0.40mm (.016")
Contact Resistance	70 milliohms (initial)
Dielectric Withstanding Voltage	250 VAC r.m.s. (for one minute)
Insulation Resistance	100 megohms min. (initial)
Rated Current	AC, DC 0.4A (per pin)
Operating Temperature	-40°C to +85°C
Contact Life Durability	50 cycles min.
Rated Voltage	AC, DC 50V
Pitch	0.4mm (.016"), 2 rows
Total Insertion Force	1N x n max. (n: pos.)
Total Withdrawal Force	0.15N x n min. (n: pos.)

WA6 SERIES CONNECTORS

0.40mm (.016") Contact Spacing, PCB to PCB SMT Connectors

FEATURES

- Low profile, with parallel board stacking height of 3mm (0.12")
- 214 contacts
- Less than 0.1mm (0.004") coplanarity of terminal portion
- Solder reinforcement contacts provided in each corner of connector (2 contacts X 4 corners-- total 8 contacts)
- 0.6mm (0.024") contact wiping length
- Integrated molding technology of contact and resin mold (plug) prevents solder wicking
- Compatible with automatic mounting
- Available with Kapton tape or embossed tape
- Available with or without positioning boss
- No polarization characteristics

ORDERING INFORMATION

Dimensions in mm (inches).

The WA6 Series connectors are high-pin count, low-profile board-to-board connectors with excellent board warpage prevention. They are specified as the JEDEC standard for 214-pin DDR2 Micro-DIMM modules. In addition to DDR2, applications include high-density, multi-pole interconnections in PCs and TVs.

GENERAL SPECIFICATIONS

Number of Contacts	214 pos.
Contact Spacing	0.40mm(.016")
Contact Resistance	70 milliohms (initial)
Dielectric Withstanding Voltage	500VAC r.m.s. (for one minute)
Rated Current	AC, DC each 0.3A/per pin
Rated Voltage	200VAC
Insulation Resistance	100 megohms min. (initial)
Contact Pitch	0.4mm (0.16")

MATERIALS AND FINISHES

• Receptacle Side

Components	Materials/Finishes

Reinforced Soldering Contacts	Copper Alloy/ Gold plating Terminal area: Gold flash
Insulator	Heat resistant plastic/ none
Heat Resistant Tape	Polyimide /none

Connector Profile (Ref.)

WH1 SERIES CONNECTORS

0.40mm (.016") Contact Spacing, PCB to PCB SMT Connectors

FEATURES

- 0.40mm (0.016") pitch, double lines, 25 and 40 pos
- Contacts have high abrasion resistance
- Roll contacts assure contact reliability
- Simple locking structure provides "click" response
- Plug and receptacle feature solder migration countermeasure
- Lead-free

The WH1 Series is a low-cost, ultra-slim board-to-board connector with just a 1mm ((0.04") mated height. It is ideal for thin devices such as mobile phones, cameras, LCDs, and PDAs.

GENERAL SPECIFICATIONS

Number of Contacts	22, 24 pos.
Contact Spacing	0.40mm (.016")
Contact Resistance	70 milliohms max. (initial)
Dielectric Withstanding Voltage	250 VAC r.m.s. (for one minute)
Insulation Resistance	100 megohms min. (initial)
Rated Current	AC, DC 0.4A (per pos)
Operating Temperature	-40°C to +85°C
Lifetime	50 times
Rated Voltage	AC, DC 50V
Pitch	0.4mm (.016"), 2 rows
Total Insertion Force	1N x n max. (n: pos.)
Total Withdrawal Force	0.15N x n min. (n: pos.)

MATERIALS AND FINISHES

AA01A SERIES CONNECTORS

0.50mm (.020") Contact Spacing, PCB to PCB SMT Connectors

FEATURES

- 0.5mm (.020") pitch 2 row connector
- Low profile 1.5mm mating height
- Small space required on the board for mounting
- Guide on insulator mates connector automatically by assembly machine
- Large hold down for secure mounting
- Metal hold down covers corner and shorter side of connector to decrease contact stress
- Locking mechanism in each contact
- Unique design prevents solder wicking
- Each contact has two contact mating areas, for secure mating
- Anti-shock structure for drop testing
- Lead free

Dimensions in mm (inches).

The AA01A Series is a 0.5mm (.020") pitch, SMT, board-to-board connector with a 1.5mm (.059") stacking height. The fine pitch and low profile offer system designers a wide range of flexibility in order to meet the tight packaging requirements needed in applications such as PDAs, cell phones, camcorders, notebook PCs and other compact equipment.

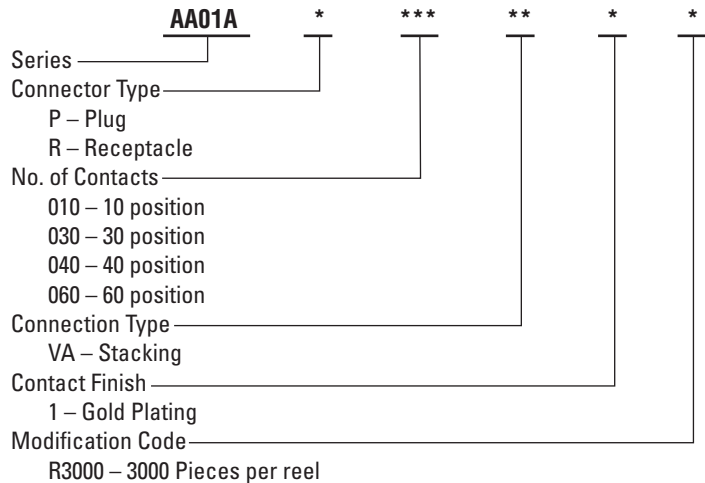

GENERAL SPECIFICATIONS

Number of Contacts	10, 30, 40, 60
Contact Spacing	0.5mm (.020")
Current Rating	0.2 Amp per contact
Withstanding Voltage	250 VAC r.m.s. (for one minute)
Insulation Resistance	100 megohms min.
Contact Resistance	70 milliohms max.
Operating Temperature	-40°C to +85°C

MATERIALS AND FINISHES

Description	Materials/Finishes
Insulator	Heat Resistant Plastic (UL94V-0, Black)
Contact	Copper Alloy with Gold Plating Contact Area: 0.1 μm min.
Hold down	Copper Alloy with Tin Plating

ORDERING INFORMATION

IL-312 SERIES CONNECTORS

0.50mm (.020") Contact Spacing, PCB-to-PCB SMT Connectors

FEATURES

- SMT contacts
- 2.5mm (.098") to 3.5mm (.138") stacked height
- Surface area of both pin and socket connectors facilitates automatic mounting
- Contact terminal length permits image recognition
- Available on embossed tape for automatic mounting
- Lead free

Connector Profile (Ref.)

		Pin	
Connector height code		Blank (standard)	30
Socket	Blank (standard)	2.5 (.098)	3.0 (.118)
	H05	3.0 (.118)	3.5 (.138)

• • • • •

These high density SMT connectors are designed for parallel PCB-to-PCB applications. They are ideal for use in VCRs, notebook PCs, cordless telephones, mobile phones, audio/visual and other telecommunications equipment where reduced size and weight are important.

GENERAL SPECIFICATIONS

Number of Contacts	20, 30, 40, 50, 60, 70, 80
Contact Spacing	0.50mm (.020")
Current Rating	0.3 Amp per contact
Dielectric Withstanding Voltage	500 VAC r.m.s. (for one minute)
Insulation Resistance	100 megohms min.
Contact Resistance	40 milliohms max.
Operating Temperature	-40°C to +85°C

MATERIALS AND FINISHES

WR SERIES CONNECTORS

0.50mm (.020") Contact Spacing, PCB-to-PCB SMT Connectors

FEATURES

- Ribbon contact design (surface contact)
- Right Angle/Parallel Board-to-Board Connections
- Nine varieties 4 to 9mm (.157 to .354") of parallel board-to-board distance
- Three straight type insulator heights
- Metal hold-downs on both ends of right angle type prevent floating up during automatic mounting
- PCB area beneath insulator may be used for circuit traces
- Available in embossed tape for automatic SMT mounting
- Contact terminal length permits image recognition

The WR Series are SMT-type connectors for PCB-to-PCB applications. These subminiature, low profile connectors keep the required space and height on the PCB to a minimum. High density, ribbon-type contacts are on 0.5mm (.020") centers.

Applications include camcorders, notebook PCs, cellular telephones and other electronic equipment requiring high density packaging.

GENERAL SPECIFICATIONS

Number of Contacts	Straight: 20, 22, 28, 30, 40, 50, 60, 70, 80, 100, 120, 160 Right Angle: 20, 30, 40, 50, 60, 70, 80, 120
Contact Spacing	0.50mm (.020")

WB3 SERIES CONNECTORS

0.50mm (.020") Contact Spacing, Board to Board Connector Compatible with PCI Express

FEATURES

- Compliant with PCI Express Card Electrical Mechanical SPEC
- High density 0.5mm pitch type yet having a high level transmission characteristic and high speed transmission is possible.
- Contact configuration that enables transmission of PCI Express (X16), TMD5, VGA and others.
- Parallel board to board connection is possible. Stacking height, 4mm and 5mm are available.
- EMI shielding is applied.
- Compatible to automatic mounting. Available in embossed tape package.

Connector Profile (Ref.)

Dimensions in mm (inches).

.....

WB3 Series are board to board connectors satisfying the specification of the transmission characteristics specification of the PCI Express standard. Suitable for connections between units that need TMD5 transmission, such as graphic card and PCI Express.

GENERAL SPECIFICATIONS

ORDERING INFORMATION

IL-WX SERIES CONNECTORS

0.80mm (.031") Contact Spacing, PCB-to-PCB SMT Connectors

FEATURES

- Low profile, connection between parallel boards spaced 4.5 mm
- Combinations of socket receptacle (straight) and pin header (straight/right angle) enable vertical and parallel connections
- The boss on both sides of connector bottom ensure correct positioning on board
- Configuration suited for automatic packaging

IL-WX Series connectors are designed for board-to-board applications. Designed with extremely small spacing, centers are on 0.8mm (.031") with double row contact arrangement. The connector features SMT contact configuration for automatic mounting. It is intended for use in portable appliances where size reduction is important. Applications include video camera and OA equipment.

GENERAL SPECIFICATIONS

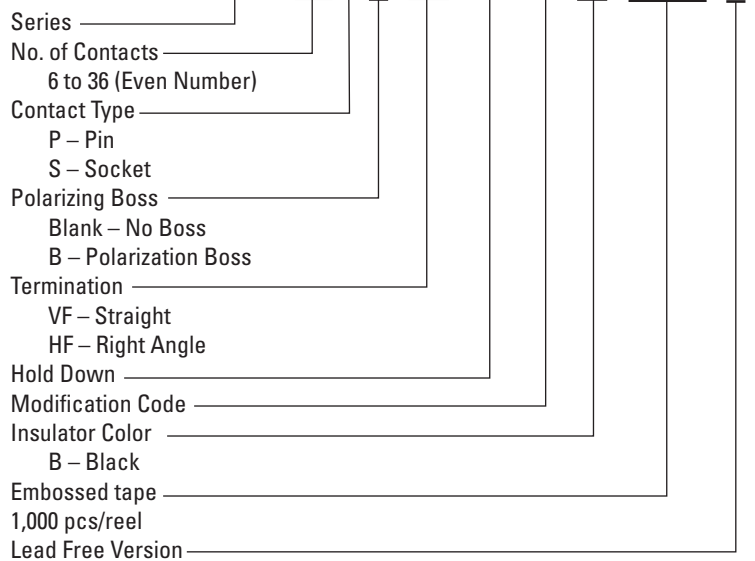

Number of Contacts	6 to 36 (even numbers only)
Contact Spacing	0.80mm (.031"), double row
Current Rating	0.5 Amps
Dielectric Withstanding Voltage	500 VAC r.m.s. (for one minute)
Insulation Resistance	100 megohms min.
Contact Resistance	25 milliohms max.
Operating Temperature	-40°C to +85°C

KX14/15 SERIES CONNECTORS

0.80mm (.031") Contact Spacing, PCB-to-PCB SMT Connectors

FEATURES

- 0.80mm (.031") contact spacing
- Straight receptacle (KX14) and right angle/straight plug (KX15) for parallel and vertical PCB connections
- 4 to 18mm (.157 to .709") stacking heights
- Polarization key prevents mismatching
- Resistant to vibration and twisting
- Available in embossed tape for automatic mounting

Connector Profile (Ref.)

Hold-down type (Right-angle side)

Screw type (Right-angle side)

Dimensions in mm (inches).

The KX14/15 Series connectors are low profile, SMT type connectors for PCB-to-PCB applications. Contact spacing is 0.8mm (.031"). The receptacle (KX14) and plug (KX15) combination offer variable stacking heights of 4 to 9mm (.157 to .354").

These connectors are ideal for use in the personal computer industry where space, weight and high density are critical factors.

GENERAL SPECIFICATIONS

PM1 SERIES CONNECTORS

0.80mm (0.031") Contact Spacing, PCB-to-PCB Bay Connectors

FEATURES

- 5.4mm (0.21") connector height, low profile board-to-board bay connector
- Plug side has two-step contact length insertion structure
- Two-step contact length insertion structure compatible with both 3.1mm (0.12") and 2.7mm (0.11") contact lengths
- Insertion guide absorbs displacement caused by insertion and removal from drive
- Lifetime of 7,000 insertions/removals
- Drive side plug can be mounted to board in common with KX15-50KLDP (no mating compatibility between PM1 Series and KX14/15 Series connectors)

The PM1 Series is a bay connector designed for 9.5mm (0.374") thick optical drives, such as those used in notebook computers. The series includes an SMT receptacle and either an SMT plug for right-angle connection or a through-hole plug for coplanar connection.

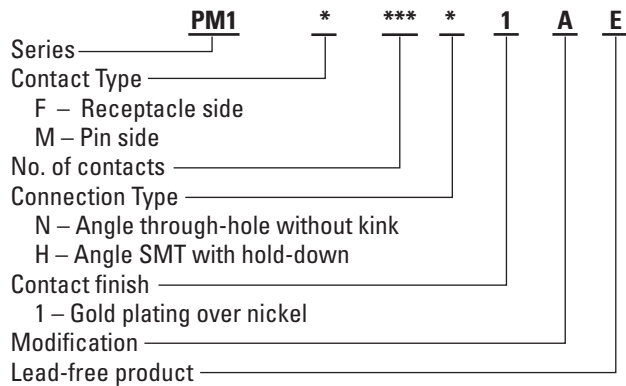

GENERAL SPECIFICATIONS

Number of Contacts	50 pos.
Contact Spacing	0.80mm (0.031")
Current Rating	0.5 Amp per contact
Dielectric Withstanding Voltage	250 VAC r.m.s. (for one minute)
Insulation Resistance	100 megohms min.
Contact Resistance	70 milliohms max.
Rated Voltage	125 VAC r.m.s.
Lifetime	7000 times

MATERIALS AND FINISHES

Description	Materials/Finishes
Base Insulator	LCP filled with heat-resistant plastic glass (UL94-V), Black
Contact	Contact Area: Gold Plating Terminal Area: Tin plating over Nickel
Reinforcement	Copper Alloy/ Tin type plating

ORDERING INFORMATION

Dimensions in mm (inches).

WM1 SERIES CONNECTORS

1.00mm (0.039") Contact Spacing, PCB-to-PCB Bay Connectors

FEATURES

- Bay connectors with 1.0mm (.039") pitch and 68 contacts support USB 2.0 in addition to IDE for signal
- Metal shell used for EMI prevention
- A 5.55mm (.218") connector height realizes a low profiled board-to-board bay connector
- Supports hot plug by using a 2-level hot plug structure on plug side (WM1M068U1A). Two types of valid connection lengths, 2.9mm (.114") and 2.5mm (.098"), for contacts to support 2 levels of hot plug (difference in level 0.4mm (.016"))
- Plug side of WM1M068U1A and receptacle side of WM1F068U1A both equip positioning bosses to support through hole reflow
- 12.8mm (.504") mating depth
- Plug side of WM1M068U1A supports Interposer boards (SLB-XDE-1, -TMK-1)
- Superior positioning error absorption structure. Insertion guide is used to absorb errors during drive insertion and removal.
Width: ± 2.0 mm, height: ± 2.0 mm
- Lifetime: 50,000 times
- Products available with 1.0 μ m and 0.76 μ m Gold Plating thicknesses on connection area of contacts ensuring high reliability
- Key prevents mis-mating

The WM1 Series of bay connectors enable 1.00mm (0.04") pitch while supporting USB 2.0.

GENERAL SPECIFICATIONS

Number of Contacts	68 pos.
Contact Spacing	1.00mm (0.039")
Current Rating	0.5 Amp per contact
Dielectric Withstanding Voltage	250 VAC r.m.s. (for one minute)
Insulation Resistance	100 megohms min. after test
Contact Resistance	60 milliohms max.
Operating Temperature	-40°C to +85°C
Rated Voltage	AC, 125 V r.m.s.
Life Cycles	5,000 cycles min.

MATERIALS AND FINISHES

• WM1F068N1A / WM1F068U1A

Description	Materials/Finishes
Contact	Copper Alloy Connecting area: Gold Plating Terminal area: Tin Type Plating
Insulator	Heat Resistant Plastic Glass Filled LCP (UL94V-0) Black
Shell	Stainless Steel, Nickel Plating

WM2 SERIES CONNECTORS

0.50mm (0.20") Contact Spacing, PCB-to-PCB Bay Connectors

FEATURES

- Compatible with USB 3.0 and SATA signal transmission
- Shell (ground portion) connects first when mating and provides EMI shielding
- High durability--10,000 times mating and un-mating guaranteed
- Two-step contacts for live insertion
- Guide provides ease of blind mating

The WM2 Series is a 0.50mm (0.20") fine pitch bay connector, compliant with USB 2.0 and SATA signals. The series is a SMT right-angle and features full EMI/ESD shielding, blind mating, and two-step contacts for live insertion. Ideal applications are bay modules in notebook computers.

GENERAL SPECIFICATIONS

Number of Contacts	54 pos.
Contact Spacing	0.50mm (0.20")
Contact Resistance	50 milliohms max.
Dielectric Withstanding Voltage	250 VAC r.m.s. (for one minute)
Operating Temperature	-40°C to +85°C
Rated Voltage	0.5A per pin

MATERIALS AND FINISHES

TX24/25 SERIES CONNECTORS

1.27mm (.050") Contact Spacing, PCB-to-PCB Connectors

FEATURES

- Non-pin type contacts withstanding mating/unmating twisting forces
- Available for seven parallel board-to-board distances
- Polarizing key for easy insertion
- "Click action" connection
- Prevents solder flux contamination
- Easy PCB pattern

(Note: 1) Stacking Heights

Straight types are available with three insulator heights can be selected within the range of 12 to 24mm (0.472 to 0.945") in 2mm (0.79") intervals, depending on the socket and pin combinations.

Connector Profile (Ref.)

The TX24/25 Series of connectors are designed for PCB-to-PCB applications. Combinations of straight and right angle through hole pin and socket connectors permit horizontal, parallel and vertical interconnection of boards. For straight through hole connectors, the distance for parallel board-to-board connections ranges from 12 to 24mm (0.472 to 0.945") in 2mm (0.079") intervals. A long electrical engagement length results in a highly reliable and stable connection. Non-pin type contacts withstand mating and unmating twisting forces and an excellent "click action" design assures a true connection. The stable housing with polarizing keys is suitable for rack and panel applications.

GENERAL SPECIFICATIONS

Number of Contacts	30, 40, 50, 60, 80, 100
Contact Spacing	1.27mm (.050") 2 rows
PCB Mounting Side Pattern	1.27 x 1.905mm (.50 x .075"), staggered 4 rows
Current Rating	1 Amp
Dielectric Withstanding Voltage	500 VAC r.m.s. (for one minute)
Insulation Resistance	100 megohms min.
Contact Resistance	40 milliohms max.
Operating Temperature	-40°C to +80°C
PCB Thickness	1.6mm (0.063")

MATERIALS AND FINISHES

Description	Materials/Finishes
Insulator	Glass-filled PBT (UL94V-0, Black)
Hook Pin	Copper Alloy/Tin Plating
Contact	Copper Alloy Connection area: Gold plating, 01µm (.000004") min over Nickel Terminal area: Tin plating

MX19 SERIES CONNECTORS

2.50mm (.098") Contact Spacing, Small Waterproof Relay Connector

FEATURES

- Mechanical lock mechanism prevents incomplete mating, and improved insertion and removal
- Improved harness assembly and insertion of terminals into housing thanks to a grommet with rear cover
- Rear cover protects the grommet from damage on terminal insertion, withstands cable flaps, and improves waterproof reliability
- Terminals have a two-plate spring mechanism with long beam length, which results in a low force insertion and stress dispersion. The highly reliable contact mechanism can withstand the particular types of vibration caused by an automobile

.....

These small waterproof relay connectors are designed for use in automotive applications. The connectors are designed to withstand harsh environments, and provide an improved harness assembly process thanks to a grommet with a rear cover. The small, proven two-plate spring mechanism improves contact reliability.

GENERAL SPECIFICATIONS

Number of Contacts	2, 4 (Color: Black (Standard), Gray)
Contact Spacing	2.50mm (.098")
Contact Resistance	10 milliohm max.
Withstand Voltage	1000VAC for one minute
Operating Temperature	-40°C to +105°C including temperature rise due to applied current
Waterproofing	Compliant with JIS D0203 S1
Rated Current	5A
Insulation Resistance	100 megohm min.

Applicable Wire

Cable Type	CAVS, AVSS
Cross Section of Conductor	0.3 to 0.5mm ²
A.W.G. No.	#22 to 20
Outer Diameter of Cable	1.4 dia. to 1.7 dia. mm

(Note) Only 0.5mm² is available for AVSS.

MATERIALS AND FINISHES

Components	Materials/Finishes
Insulator	PBT (Black (standard) or Gray)
Contacts	Pin: Copper Alloy Socket: Copper Alloy
Grommet	Silicon Rubber (Brown)
Sealing Ring	Silicon Rubber (Brown)
