Wire Connectors

Innovation with a Purpose.

Wire Connector Brochure

VISION. PERFORMANCE. SERVICE.

SINCE 1916

**IDEAL Connectors
are available in:**

Box: For smaller jobs.

Store 'N Pour™ Jar:
Easy-pour design keeps connectors clean
and your shelf organised.

Connector Kits: These re-usable divider boxes contain
a selection of our most popular wiring connectors.

Barrel: For really big jobs
when you can't afford to run
out of connectors.

CONTENTS:

IDEAL Wire Connectors

Our comprehensive range contains the connectors you need for an easier, more efficient job. That's why day in and day out, professionals like you are choosing

IDEAL. THE BRAND ELECTRICIANS TRUST.

IDEAL connectors provide safe, dependable solutions for every wiring application.

Designed to exacting European safety standards and fully compliant with UK Wiring Regulations, IDEAL manufactures a connector that's right for every job.

For over 95 years, IDEAL INDUSTRIES has been supplying quality electrical products to professional installers around the world.
IDEAL
Wire Connectors

For ultimate comfort and optimum wire range

When you've got an installation where you'll be making connections all day, the Twister® PRO is the connector you want. The SureGrip™ design ensures improved torque while the comfortable swept wings ease hand fatigue. You'll feel the difference immediately.

Patented SureGrip™ overmoulding provides improved leverage and more torque
Better grip and more leverage for faster connections

Accepts solid and stranded wires

Exceptional wire range and capacity; up to max. 4 x 4.0mm²

Min. 3 x 0.5mm²
Max. 4 x 4.0 mm²

Twister®
PRO

FAST FACT:

A patented square wire spring bites on the first 360° turn ensuring a secure connection that will not relax over time.

Made in U.S.A.

of U.S. and global components

BS 7671:2008 (17th Edition) Compliant CE

The No. 1 wiring connector

The Twister® easily handles the most common wiring tasks. A patented, expanding square-wire spring always ensures a quick, safe connection.

A cost-effective solution, the Model 341 Twister® connector accepts both stranded and solid wire from 0.5mm² up to 6.0mm² allowing one connector to do the job traditionally done by separate 5A, 15A and 30A terminal blocks.

105°C flame retardancy rating to UL 94V-2

Durable polypropylene shell expands for progressive tightening, a feature that ensures dependable connections

Swept-wing design for improved comfort

Accepts solid and stranded wires
Twister®

FAST FACT:

The small profile of the Model 340 Twister® means it easily fits inside standard connector enclosures.

Connected and protected

Designed specifically for above ground, interior/exterior connections exposed to damp/wet and corrosive environments. WeatherProof™ connectors are pre-filled with a non-hardening, silicone-based sealant that protects against moisture and corrosion.

**Easy to apply, pre-filled twist-on wire connectors**

Swept wing design is built for comfort and efficiency

UL Listed to 486D/IP55 for use in damp or wet above-ground locations

WeatherProof™

FAST FACT:

The silicone-based sealant protects electrical connections, eliminating the need for heat-shrink or water-proof enclosures in many applications.

Strip, Push, Connect. The fastest way to make a connection

The In-Sure™ Push-In wire connector can reduce installation time by up to 50% compared to more traditional connection methods such as terminal blocks. Classified as "Maintenance Free", In-Sure™ connectors are the perfect replacement for crimped splices. The fastest, easiest, push-in connector on the market.
**Clear shell allows visual inspection of the connection**

Check port for continuity testing

Push-in design reduces repetitive motion fatigue

2 to 8 wire connections for 0.75mm² - 4.0mm² solid and 1.5mm² - 2.5mm² stranded conductors

In-Sure™

FAST FACT:

The In-Sure™ Push-In has a low insertion force for fast, easy connections. Great for junction boxes.

A great alternative to the butt-splice

The SpliceLine™ in-line wire connector provides a crimp-free, solderless butt-splice. Classified as "Maintenance Free" as per BS 7671:2008, the two-port model accepts up to 2.5mm² wire, allowing one connector to do the job of multiple butt-splices. Its end-to-end connection is also a great solution for pre-fab operations.

Transparent polycarbonate shell allows for visual inspection of connection

Slim design easily fits through holes in metal back boxes

Check port for continuity testing

SpliceLine™
IN-LINE WIRE CONNECTORS

FAST FACT:

Perfect for lengthening short wires, the SpliceLine™ is 2X faster than traditional butt-splices.

Maximum performance for data and telecom networks

Designed for low voltage telecommunications cables, IDC connectors (Jelly Beans) provide a simple, economical and reliable means of jointing solid copper wires. They do not require the insulation to be stripped, making the connection quick and easy.

IDEAL's range of RJ-11 and RJ-45 modular plugs can be used with your choice of cabling and are capable of supporting the latest ISO and EIA/TIA cable system performance categories. Compatible with standard crimp tools all plugs work with 0.2mm² (24 AWG) solid or stranded conductors and round or flat cables.

CAT 6 / ISO Class E RJ-45 Modular Plugs complete the line and are designed for high speed applications. The unique 3-piece design features wire management components to maintain the cable integrity, helping to ensure optimal performance and easy installation.

Insulation Displacement Connectors (IDC)

Moisture-resistant sealant protects wires from corrosion. Use with solid copper single-conductor wire

CAT 6 RJ-45 Modular Plugs

Crimps with a standard RJ-45 crimp die. 50 micron gold contacts, 8-position, 8-contact. Suitable for solid or stranded conductors – 0.26mm² – 0.33mm²
IDC

FAST FACT:

Jelly Beans are perfect for extending domestic and commercial telephone wiring.

Satellite and CATV drops made easy

Compression F-Connectors are replacing crimp and screw-on style connectors thanks to their ease of installation and superior performance. The OmniCONN™ range features an o-ring that provides a watertight seal for outdoor applications.
IDEAL also has a full range of compression tools that work with these and most other brands of compression connector.

OmniCONN™ F-Connectors

Free spinning hex nut for ease of installation onto all 11mm (7/16) ports, 75 ohm nominal impedance and two-piece pre-assembled connectors

Push-On F-Connector, RG6 & RG-59

No terminator tool required. All brass nickel-plated construction. Knurled nut for superior grip and designed for indoor use

Push-On

FAST FACT:

Push-On F-Connectors provide secure connections without the need for any tool.

Compression connectors for audio and RF applications

BNC are a type of RF connector commonly applied to coaxial cable. Often used on CCTV equipment, test instruments and other radio-frequency electronic equipment, these compression style connectors have a moisture inhibiting design.

Commonly referred to as "phono" connectors, RCA connectors are used for carrying audio and video signals. These connectors are a must for installers of home cinema and high fidelity audio systems.

BNC Connectors

Nickel-plated brass construction for superior corrosion resistance. 75 Ohm nominal impedance and gold-plated pin contact area
