

# Enclosed Reversing DC Drives

**Model 400ER**

**Model 800ER**

**Model 1200ER**

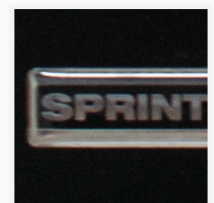

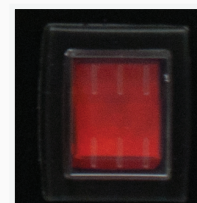

**A range of enclosures for professional use.**

From 0.5KW to 1.8KW

**Features Include:**

- Mains On/Off Switch.
- Dual Voltage Supply.
- Set speed potentiometer with graduated scale.
- Zero Speed Interlocked Reversing
- Dynamic Braking
- Reverse Toggle Switch

## Ratings

Model:	Nominal AC Supply Range	Typical Armature Voltage	Field Voltage	Max Continuous Armature Current	Nominal Power	Dimensions W x H x D (mm)
400 ER	110/240v	90/180v	100/210v	4 amps	0.55 KW	177 x 250 x 100
800 ER				8 amps	1.1 KW	
1200 ER				12 amps	1.8 KW	

**Note:**

Units are Factory preset for 240V AC, for use with 110V AC change mains selector jumper on drive unit and move AC input from terminal 21 to 22 on the reversing unit

**External Fuses:**

HRC type minimum 1.5 x Armature Current
