Hardware Selection Guide

Panel control mounting hardware is determined by bushing style. The "X" in the bushing style column indicates what hardware is used with the bushing. Hardware indicated by a shaded area is normally supplied with unit. Other hardware may be ordered separately. Hardware may be bulk packaged or individually packaged with units, depending on the model.

	Bushing Style and Dimension									
	Α	В	С	Е	F	J	L	U	N	R
Part Number and Description	3/8 " dia.	locking, 3/8 " dia.	1/4 " dia.	locking, 1/4 " dia.	1/4 " dia.	3/8 " dia.	9 mm dia.	7 mm dia.	1/4 " dia.	10 mm dia.
