Datasheet

Long Coil Tubing Without Connector PUR 9 Bar

RS Stock number [224-209](#)

Description:

Polyurethane tubing allows for small bend radii and compact installations.

Wide range of operating temperatures and pressures.

Excellent chemical resistance and ages well.

Hardness 52 ° Shore D.

Available in coils of 25m.

Good chemical resistance.

Constant rigidity, good ageing.

Good absorption of vibrations.

UV-resistance.

Fluid identification (crystal version).

Excellent Resistance to abrasion.

Silicone-free

Tube length marked every metre.

Professionally approved products.

Specifications:

Colour:	Blue
Manufacturer Series:	1025U
Material:	PUR
Maximum Operating Length:	25 m
Maximum Operating Pressure:	9 bar
Maximum Operating Temperature:	70 °C
Minimum Operating Temperature:	-15 °C
Tube Inside Diameter:	8 mm
Tube Outside Diameter:	12 mm
