

Specification Sheet

BV 5/1 Bp

Lightweight and powerful battery-powered backpack vacuum cleaner.

KÄRCHER's new BV 5/1 Bp backpack vacuum is designed for quick and effective vacuum cleaning of hard-to-reach, fast turnaround areas such as public transport, aeroplanes, cinemas, theatres and stairwells. With innovative hybrid technology, this machine can run on batteries where access to a power supply is difficult, but can be operated from a normal power outlet as well. Running time with 2 rechargeable batteries is about 35 minutes. They can be recharged and ready for operation again in only one hour. Choosing a KÄRCHER BV 5/1 Bp vacuum can dramatically increase productivity in these cleanliness-critical areas. The machine features a 5 litre capacity and a single, powerful vacuum motor.

- Patented Air Stream Comfort strap system, with ventilation and wide adjustment range ensures operator comfort even over long operating periods.
- Ergonomic design keeps controls and accessories easy to reach at all times.
- Permanent, washable main filter basket allows machine to operate with or without filter bag.
- Standard fleece filter bag and optional HEPA filter bag offer exceptional dust filtration.
- Wide range of accessories to suit individual applications.
- Batteries mounted on waist belt for excellent weight distribution.
