

Certificate of FDA Compliance

Manufacturer: Fenner Drives
311 West Stiegel St.
Manheim, PA 17545

Product: Eagle® Blue 80 MD

Date of Declaration: July 13, 2012

The monomers and additives used to manufacture this product are listed in US FDA food-contact regulations CFR 21 177.1680, CFR 21 177.2600 and CFR 21 178.3297 relating to polymers and articles intended to come into contact with foodstuffs.

The above product has been ***independently*** tested for migration with the simulants and test conditions listed below as defined in CFR 21 177.2600.

Food Simulants	Test Conditions		Limits	
	Duration	Temp	7 hours	2 hours
Hexane	7hours + 2 hours	Reflux Temp.	175mg/in ²	4mg/in ²
Water	7 hours + 2 hours	Reflux Temp.	20mg/in ²	1mg/in ²

The migration results were found to be below the limits defined in CFR 21 177.2600.

The above product has been ***independently*** tested for abrasion resistance following ASTM D968-81 "Standard Test Methods for Abrasion Resistance of Organic Coatings by the Falling Abrasive Tester" as outlined in CFR 21 177.1680.

Test Conditions	Limit
100 liters of Sand	0.001" per 20 liters

The abrasion results were found to be below the limit defined in CFR 21 177.1680.

The named product is manufactured according to CFR 21 110 on "Current Good Manufacturing Practice in Manufacturing, Packing, or Holding Human Food."

Therefore, the named product fully complies with the regulations indicated and may be used in repeat food contact applications at temperatures up to 150°F for all foods with an alcohol content less than 8%.
