

# 2017 Labelling Solutions Guide

# Welcome

In almost every professional setting today, there is an increased focus on creating a work environment that is safer, more productive, and more efficient. When things do go wrong, organisations need to be able to effectively respond so they can get back to delivering the best product or service possible to their customer. DYMO® can help. With a full offering of label makers and labels, DYMO can assist organisations with a broad array of labelling applications. From labelling file folders to marking pipes, identifying cables, and printing barcodes used to track inventory, DYMO has a solution that can help improve the safety and productivity of almost any work environment.

This catalogue is intended to serve as a tool to help you identify and learn about the various labelling opportunities within specific industries and their corresponding DYMO labelling solution. Included in this guide are a series of facility maps representing the following environments: Data Centres, Education, Hospitality, Manufacturing, and Office. Use these maps to identify the various labelling applications found within each facility. The corresponding overview section for each environment provides valuable information on the DYMO difference for each application, as well as insight into who may be responsible for making the purchasing decision. Last, to support the maps you will also find detailed labelling application guides that provide product recommendations and an overview of each application, showing the advantages that labelling can provide.

**DYMO is how labelling gets done.**

# Data Centre

## Labelling with DYMO in the Data Centre

Proper labelling of infrastructure components is essential to efficient data centre operations. The DYMO line of professional-grade label printers meet ANSI/TIA-606-B standards and can be used to clearly label racks, cabinets, wires/cables, patch panels and ports for fast identification.

The information contained in this Data Centre Guide is being provided for general information purposes only and is based on current standards which are subject to change.

# Data Centre | Overview

# Education

## Labelling with DYMO in the Education Environment

DYMO printers and labels satisfy a wide range of labelling needs across educational campuses – while eliminating the ongoing expense of ink and toner. Use DYMO labellers to print visitor badges, label audiovisual and security equipment, manage asset tracking, employ barcoding, and keep an entire facility well organised and operating smoothly.

# Hospitality

## Labelling with DYMO in the Hospitality Industry

Making a positive impression and keeping things operating smoothly are critical to success within the hospitality and service industries. DYMO labelling solutions work throughout any retail, hotel or food service facility, simplifying the process of asset tracking, barcoding, inventory control, facility management and general organisation.

# Hospitality | Overview

# Manufacturing

## Labelling with DYMO in the Warehouse or Manufacturing Facility

DYMO delivers a comprehensive array of labelling options to help achieve a flexible workflow and increase productivity throughout warehouse and manufacturing facilities. Use DYMO labellers and industrial labels for everything from barcoding to labels for shipping, receiving, shelving, bins, beams and pipe marking.

# Manufacturing | Overview

Labelling Opportunities	The DYMO Difference	Application Guides
<p><b>A</b> <b>Asset Tracking/Barcoding</b> Commonly used for inventory management, barcode labels allow the ability to store and organise varying amounts and types of data.</p>	<p>DYMO offers printers and software that print a range of barcode symbologies, including QR codes. # 5S Visual Workplace

## What is 5S?

5S is a key component to the “visual workplace” system where workers are presented with important visual information in the locations and at the times it is needed within a facility. The purpose of the 5S system is to organise a workspace in the most efficient and effective means possible. This can be achieved by identifying, using, and storing items in a standardized manner that is understood and adhered to by all team members.

## Why label for 5S?

A cost effective and efficient way to implement 5S practices in any facility, labelling can facilitate:

- Colour-coding for quick visual reference
- Identification of assets, workspaces, etc.
- Uniform communication throughout the facility

## Benefits of implementing

- Increased worker productivity
- Reduced costs associated with loss and breakage
- Creates an overall safer work environment

## Breaking down the 5S system

The 5S's	What does it mean?	How to implement?
<b>SORT</b>	Eliminate all unnecessary tools, parts, and instructions.	<ul style="list-style-type: none"> <li>• Colour code with labels</li> <li>• Designate workspaces</li> </ul>
<b>STRAIGHTEN</b>	Arrange tools, parts, and instructions so that all have a clearly marked “home”. Items used most frequently should be the easiest and quickest to locate.	<ul style="list-style-type: none"> <li>• Label both the tool and its designated home space</li> </ul>
<b>SHINE</b>	Clean all workspaces and equipment, keeping everything clean, tidy and organised.	<ul style="list-style-type: none"> <li>• Set a designated time to clean an area</li> </ul>
<b>STANDARDIZE</b>	Set uniform procedures and workstations through the facility to promote interchangeability.	<ul style="list-style-type: none"> <li>• Create standardized workstations</li> <li>• Train on maintaining work areas</li> </ul>
<b>SUSTAIN</b>	Enforce adherence of all rules and procedures to prevent unfavorable practices from returning.	<ul style="list-style-type: none"> <li>• Implement regular audits</li> </ul>

## 5S Solutions from DYMO

Meet your 5S needs with industrial labelling solutions from DYMO. Designed to work exclusively with DYMO label makers, DYMO XTL and IND labels are tough. Whether you're labelling to OSHA, ISO and ANSI colour standards or labelling in harsh conditions, DYMO IND labels have you covered.

### Recommended labels for 5S

Additional sizes and colours available. Visit [dymo.com](http://dymo.com) for details.

#### XTL All-Purpose Vinyl and IND Vinyl Labels

- Ideal for indoor/outdoor applications.
- UL recognized as a component to UL 969
- RoHS compliant
- UV, water, oil and chemical resistant
- XTL temperature rating: -40°C to +60°C
- IND temperature rating: -40°C to +80°C
- XTL length: 7 m
- IND length: 5.5 m

LABELS

#### IND Embossing Labels

- For heavy-duty, extreme condition labelling
- Ideal for marking pipelines, underground cables, engine parts, building materials and more
- Compatible with Rhino M1011 Embosser Kit only
- Aluminium non adhesive, length 4.8 m
- Aluminium adhesive, length 3.6 m
- Stainless non adhesive, length 6.4 m

#### Available Colours

# Asset Tracking

## What is asset tracking?

Asset tracking refers to the process by which many organisations track the movement of physical assets within their facilities.

Some organisations choose to manage their process with special asset tracking software that can be paired with barcode labels to facilitate easy scanning of an asset. When using barcode labels it is important to consider a variety of criteria before selecting a label:

- Will the label accommodate a barcode?
- What type of environmental conditions will the label have to stand up to?
- Will the label stick to the surface it will be applied to?
- Will the text printed on the label smear or fade over time?

### Implementing asset tracking can help to:

- Reduce loss of items
- Manage assets
- Increase productivity
- Improve audits

## Commonly tracked items include:

Inventory

Tools

Equipment

IT Assets

## Importance of Barcode Labelling

Regardless of an operation's size, tracking and managing assets using barcodes can be an inexpensive and efficient way to ensure items are in order and accounted for.

DYMO provides a full suite of labellers capable of printing a variety of barcode symbologies. Use the chart below to determine the DYMO product best suited to meet your barcoding needs.

#### XTL All-Purpose and IND Vinyl Labels

- Ideal for indoor and outdoor applications.
- UL recognized as a component to UL 969
  - RoHS compliant
  - UV, water, oil and chemical resistant
  - XTL temperature rating: -40°C to +60°C
  - IND temperature rating: -40°C to +80°C
  - XTL length: 7 m
  - IND length: 5.5 m

#### Available Colours

#### XTL Permanent Flat Surface Labels

#### IND Permanent Polyester Labels

- Professional, polished finish. Ideal for flat surfaces.
- UL recognized as a component to UL 969
  - RoHS compliant
  - UV, water, oil and chemical resistant
  - XTL temperature rating: -40°C to +60°C
  - IND temperature rating: -40°C to +150°C
  - XTL length: 9.1 m
  - IND length: 5.5 m

#### Available Colours

#### D1 Durable Labels

Labels that last on demanding surfaces

- For use in LabelManager™ labellers, not recommended with LabelManager™ 500TS, LabelManager™ Wireless PnP or LabelWriter™ 450 Duo label printer.
- Indoor/outdoor water-resistant design
- UV light, heat, humidity, household cleaners, near freezing conditions resistant
- Temperature rating: -40°C to +80°C
- Available in 12 mm

#### Available Colours

#### LW Durable Labels

Labels that last on demanding surfaces

- For use in LabelWriter™ labellers, not recommended with LabelWriter™ 450 Duo label printer.
- sticks to surface like metal tread plate, textured PVC, wood, glass
- withstands damp conditions up to 85% humidity
- protective coating prevents peeling from abrasion, industrial oils and cleaners
- Temperature rating: -18°C to +50°C

# Barcodes

## Why use barcodes?

The use of barcodes is a common practice in many industries because of their ability to store and help organise varying amounts and types of data. When linked to a database, barcodes can also help to expedite recall and updates of information for a more efficient workflow. Using barcodes supports the fast identification of items which can help to:

- Reduce human error
- Increase productivity
- Manage assets
- Improve audits

## Common Applications:

Originally developed to identify railroad cars in the 1960's, the use of barcodes and barcode labels has evolved to span a variety of industries and applications.

### When selecting a barcode label, be sure to ask the following questions:

- Will the label size accommodate a barcode?
- What type of environmental conditions will the label have to stand up to?
- Will the label adhere to the selected surface?

Retail

Asset Tracking

Inventory

Shipping

## Barcode Symbologies

- **Linear barcodes (1D):** made up of lines and spaces to create patterns (ex. UPC code)
- **Matrix barcodes (2D):** can store much more data than a linear barcode in a smaller amount of space (ex. QR code)

Below are examples of the barcode symbologies supported by DYMO products.

Barcode Symbology	Common Uses
<b>Code 39 (Code 3 of 9)</b>  ABC-1234	<ul style="list-style-type: none"> <li>• Name badges</li> <li>• Inventory</li> <li>• Industrial applications</li> <li>• Required for government and Dept. of Defense</li> </ul>
<b>Code 128</b>  ABC-ABC-1234	<ul style="list-style-type: none"> <li>• Used worldwide</li> <li>• Compact in size</li> </ul>
<b>Interleaved 2 of 5</b>  12345678	<ul style="list-style-type: none"> <li>• Warehouses</li> <li>• Distribution</li> <li>• Industrial applications</li> </ul>
<b>UPC A</b>  71 17010 59352 10	<ul style="list-style-type: none"> <li>• Point of sale trade items</li> </ul>

Barcode Symbology	Common Uses
<b>UPC E</b>  01 123456 5	<ul style="list-style-type: none"> <li>• Point of sale trade items</li> <li>• Used when space is limited</li> </ul>
<b>EAN 8</b>  19031 1017	<ul style="list-style-type: none"> <li>• Point of sale trade items</li> <li>• Used when space is limited</li> <li>• Indicates the country in which the company that sells the product is based</li> </ul>
<b>EAN 13</b>  01 123456 789012	<ul style="list-style-type: none"> <li>• Point of sale trade items</li> <li>• Indicates the country in which the company that sells the product is based</li> </ul>
<b>Codabar</b>  ABC1234567890	<ul style="list-style-type: none"> <li>• Libraries</li> <li>• Blood banks</li> <li>• Air parcels</li> </ul>

Barcode Symbology	Common Uses
<b>GS1-128 (UCC/EAN 128)</b>  (01)ABC 12345	<ul style="list-style-type: none"> <li>• Storing information like dates, batch numbers, quantities, weights, etc.</li> </ul>
<b>ITF-14</b>  12345678901234	<ul style="list-style-type: none"> <li>• Storing Global Trade Item numbers; used on product packaging configurations (shipper, case, pallet, etc.)</li> </ul>
<b>PDF 417</b> 	<ul style="list-style-type: none"> <li>• Transport</li> <li>• Identification cards</li> <li>• Inventory management</li> </ul>
<b>QR Code</b> 	<ul style="list-style-type: none"> <li>• Asset tracking</li> <li>• Document management</li> <li>• Marketing &amp; advertising</li> <li>• Links to websites</li> </ul>

## Barcode Solutions from DYMO

Easy-to-use DYMO label makers and label printers support a variety of barcode symbologies and label types. Use the reference chart below to determine the right DYMO product for your barcoding needs.

## Recommended Labels for Barcodes

Additional sizes and colours available. Visit [dymo.com](http://dymo.com) for details.

### XTL All-Purpose Vinyl and IND Vinyl Labels

- Ideal for indoor and outdoor applications.
- UL recognized as a component to UL 969
  - RoHS compliant
  - UV, water, oil and chemical resistant
  - XTL temperature rating: -40°C to +60°C
  - IND temperature rating: -40°C to +80°C
  - XTL label length: 7 m
  - IND label length: 5.5 m

#### Available Colours

### XTL Permanent Flat Surface and IND Permanent Polyester Labels

- Professional, polished finish. Ideal for flat surfaces.
- UL recognized as a component to UL 969
  - RoHS compliant
  - UV, water, oil and chemical resistant
  - XTL temperature rating: -40°C to +60°C
  - IND temperature rating: -40°C to +150°C
  - XTL label length: 9.1 m
  - IND label length: 5.5 m

#### Available Colours

### D1 Durable Labels

- Labels that last on demanding surfaces
- For use in LabelManager™ labellers, not recommended with LabelManager™ 500TS, LabelManager™ Wireless PnP or LabelWriter™ 450 Duo label printer.
  - Indoor/outdoor water-resistant design
  - UV light, heat, humidity, household cleaners, near freezing conditions resistant
  - Temperature rating: -40°C to +80°C
  - Available in 12 mm

#### Available Colours

### LW Durable Labels

- Labels that last on demanding surfaces
- For use in LabelWriter™ labellers, not recommended with LabelWriter™ 450 Duo label printer.
  - withstands damp conditions up to 85% humidity
  - Temperature rating: -18°C to +50°C

# Cable & Wire

Cable and wire identification refers to the markers or labels that are typically affixed to a cable or wire for identification purposes. These markers provide a quick and easy way to identify a cable or wire and can be placed in a location that is easy to read, even in hard-to-reach areas.

## Benefits of implementing

- Helps facilitate quick and easy identification of wires and cables
- Helps reduce repair time by eliminating the need to guess what a wire or cable is for
- Helps minimize down time from repairs that could take longer than expected if cables remain unidentified

## The most common type of cable/wire markers are:

### Flags

- Ideal for identifying thin wires
- Provides a flat surface for placement of text, barcodes, etc.
- Recommended material: Vinyl, Flexible Nylon and Laminated.

### Wraps

- Information is repeated on the label so it can be read on any side of the cable/wire
- Recommended material: Vinyl, Flexible Nylon

### Heat-Shrink Tubes

- Provides a permanent way to mark a cable or wire
- 3:1 shrink ratio ensures a secure fit

## What size heat-shrink tube do I need?

Heat-shrink tubes vary in width, so the easiest way to determine the size of tube needed is to know the diameter of the wire or cable being identified. Use the chart below to help determine the size of DYMO heat-shrink tube needed for your wire or cable.

### DYMO Heat-Shrink Tubes meet the following certifications:

- UL recognized as a component to UL 224
- Meets MIL-STD-202G, MIL-M-81531 and SAE-OTL 23053/5 (Class 1 & 3)
- RoHS compliant

DYMO Heat-Shrink Tube Width	Minimum Cable Diameter	Maximum Cable Diameter
mm	mm	mm
6	1.18	2.33
9	1.73	3.73
12	2.97	5.13
19	4.64	8.70
24	5.1	15.2
54	1.5	34.06
54	11.5	32.3

## Cable & Wire Solutions from DYMO

Designed based on input from professionals, DYMO industrial labellers and labels are tough, affordable and long-lasting. They're loaded with convenient features that speed up your productivity – and help you save time and money every day.

#### XTL All-Purpose Vinyl and IND Vinyl Labels

Ideal for both indoor and outdoor applications.

- UL recognized as a component to UL 969
- RoHS compliant

LABELS

- UV, water, oil and chemical resistant
- XTL temperature rating: -40°C to +60°C
- IND temperature rating: -40°C to +80°C
- XTL length: 7 m
- IND length: 5.5 m

#### Available Colours

#### XTL Flexible Cable Wrap and IND Flexible Nylon Labels

Specifically designed for curved surfaces and wire and cable marking.

- UL recognized as a component to UL 969
- RoHS compliant
- XTL temperature rating: -40°C to +60°C
- IND temperature rating: -10°C to +80°C
- XTL length: 5.5 m
- IND length: 3.5 m

#### Available Colours

#### XTL Heat-Shrink Tube (Continuous & Pre-Sized) and IND Heat-Shrink Tube Labels

For high-end cable identification. A 3:1 shrink ratio helps ensure a secure fit on wires and cables.

- UL recognized as a component to UL 224
- Meets MIL-STD-202G, MIL-M-81531 and SAE-DTL 23053/5 (Class 1 & 3)
- RoHS compliant
- XTL temperature rating: Max +125°C
- XTL length: Varied length
- IND length: 1.5 m

#### Available Colours

#### XTL Laminated Wire/Cable Wrap and IND Self-Laminating Labels

Pre-sized wire/cable wraps with laminated overwrap protect printed areas from oil, chemicals, moisture, abrasion and fading.

- XTL Wraps also available in sheet label formats
- UL recognized as a component to UL 969
- RoHS Compliant
- XTL temperature rating: -40°C to +60°C

#### Available Colour

\*Black on yellow offered for IND Heat-Shrink Tube and IND Flexible Nylon labels only

# Electrical

## Promote safety and productivity with labelling.

The proper labelling and identification of electrical components is an easy and effective way to promote safety and productivity in any facility. Proper identification of cables and panels allows for efficient navigation of electrical installations; while the use of safety signage can help to prevent injuries that are commonly associated with the improper use of personal protective equipment (PPE).

### A properly labelled electrical installation will:

- Facilitate quick identification of electrical infrastructures for trouble shooting and repairs
- Help ensure power is disabled when servicing live installations
- Assist in meeting ANSI and ISO standards
- Help inform workers of PPE to be used around the installation as well as proper shut-down procedures

## DYMO offers labelling solutions for a variety of electrical applications:

### Cables & Wires

- Flexible nylon cable wraps, tear-proof material resists damage when pulled through tight spaces.
- Laminated wire/cable wraps, laminated overwrap to protect printed areas from oil, chemicals moisture, abrasion and fading.
- Heat-shrink tubes, provide insulation when shrunk down and ensure a secure fit with 3:1 shrink ratio.

### Safety & Warning

- Colour-coded labels (orange, yellow and red) clearly identify potential safety risks associated with equipment being serviced
- Durable enough to withstand weather, chemicals, heat, corrosion or any other environment to which they may be exposed
- Recommended material: Vinyl

### Panel ID

- Ensures each panel will communicate accurate information, eliminating fear of losing panel ID cards
- Vinyl is UL 969 rated; approved for electrical panel usage – indoor and outdoor
- Recommended material: Vinyl

## What size heat-shrink tube do I need?

Heat-shrink tubes vary in width, so the easiest way to determine the size of tube needed is to know the diameter of the wire or cable being identified. Use the chart below to help determine the size of DYMO heat-shrink tube needed for your wire or cable.

# Maintenance, Repair and Operations

## What is MRO?

Maintenance, Repair and Operations or MRO, ensures the proper operation and organization of all aspects of a building to create an optimal, safe and cost-effective environment for occupants. Regardless of how the facility is being used, the structure and equipment that keep its occupants comfortable and safe must be maintained on a daily basis.

## Using proper and effective identification can help to:

- Maintain a clean, well-organised, consistent appearance
- Optimise functionality
- Increase productivity and longevity of assets

## DYMO labels create order and efficiency within facilities:

### Equipment Asset Tracking

Barcode labels identify and track equipment, helping to maintain organisation and inventory of assets.

### Racks & Shelving

Use labels to aid in quick location and identification.

### Safety

Colour-coded labels applied throughout a facility can help alert employees to use caution, or warn of potential dangers.

### Cable/Wire Management

Use of flags, wraps and heat-shrink tube labels on wires and cables facilitate quick and easy identification, minimizing down time and saving time in repairs.

### Material Management

UV, water, oil and chemical-resistant labels clearly identify materials from the point of procurement through waste disposal, accountability, quality control, standards compliance and inventory reporting.

## Colour-coded labelling to meet OSHA standards

The Occupational Safety & Health Administration (OSHA) requires the use of proper labelling and identification throughout facilities. DYMO labels can help to implement the applicable standards. For more information on OSHA labelling standards, visit <https://osha.europa.eu/en>

## MRO Solutions for DYMO

DYMO offers a full range of printers to let you choose from a variety of label formats and barcode symbologies to help make identification and tracking assets in your organisation easy. Designed to work exclusively with Rhino™ label makers, DYMO IND labels are tough—jobsite tested and UL recognized. Whether you're labelling to OSHA, ISO or ANSI colour standards or labelling in harsh conditions, DYMO IND labels have you covered.

#### LW Durable Labels

Labels that last on demanding surfaces

- For use in LabelWriter™ labellers, not recommended with LabelWriter™ 450 Duo label printer.
- sticks to metal tread plate, textured PVC, wood, glass
- protective coating prevents peeling from abrasion, industrial oils, cleaners
- withstands damp conditions up to 85% humidity
- Temperature rating: -18°C to +50°C

# General Identification

## Why does office organisation matter?

Establishing processes and procedures are essential to the success of any business, but one item that is often overlooked is office organisation. From finding the right files and drawers to helping colleagues book the right meeting room, general organisation and identification provides an efficient way to simplify the everyday working life in and around the office.

### Some ways to increase efficiency and help save time include:

- **COLOUR CODING**

Use different colour labels to differentiate items (i.e. show what kind of material they contain or confidentiality status)

- **QUICKER IDENTIFICATION**

Label to help name and identify filing trays, CD/DVD cases and more

- **TRACK OR NOTIFY**

Label equipment, signage and instruction labels to improve people or asset flow, enabling people and assets to move around in buildings within an organised, comfortable and safe way

### Additional ideas for labelling around the office include:

Files & Folders

Binders

Drawers

Shelves

Books

Storage

Building Infrastructure

Equipment

## General Identification Solutions from DYMO

Keep any office organised, efficient and under control with DYMO® LabelWriter™, LabelManager™, MobileLabeler™ and labels

- DYMO® offers easy-to-use products with an intuitive interface to help you label quickly and easily
- Create customized labels with many fonts, styles, graphics, barcodes and more
- Labels are available in many different sizes and colours suited for every application in the office

# Mailing & Shipping

## Helping to improve efficiency in any mail and shipping department.

Despite the digitalisation of today's world, sending and receiving mail and packages is still an everyday necessity for most businesses. The process of sending out mailings can be a time-consuming job so it's important that it happens in the most productive, efficient and professional way possible.

Using DYMO label printers and labels for your mailing and shipping process can help you save time and have your business mailing like a pro in no time. When you use DYMO you can enjoy these great benefits:

- **Professional looking** – printed address labels eliminate handwriting errors
- **Print the precise number of mailing or shipping labels needed** – without the waste you can have with inkjet or laser sheet labels
- **Self-adhesive labels** – this means no more cutting and taping labels
- **No expensive ink or toner required** – the DYMO LabelWriter™ 450 Series label printer uses smudge-proof thermal printing technology

### ▶ Create your own desktop mailing solution

Combine any LabelWriter™ label printer with any DYMO USB digital mailing or shipping scale to create a complete desktop mailing solution.

DYMO label printers are easy to use and can help tackle a variety of mailing and shipping needs including:

**Address labels**  
Including return

**Shipping Labels**  
Up to 104 x 159 mm

## Mailing and shipping solutions from DYMO®

Connect a DYMO LabelWriter™ label printer to your PC or Mac® and you're ready to print address labels, shipping labels and much more. These label printers make it easy to get first-class results. Thermal printing technology eliminates the cost of ink or toner and the hassle of sheet labels. Improved resolution graphics deliver crystal clear text, graphics and barcodes.

\* Only compatible with LabelWriter™ 4XL

# Networking Components

## In today's competitive landscape, network labelling is critical.

From cables and wires to patch panels, terminal blocks and faceplates, there are a lot of components that go into a telecommunications infrastructure. A labelled infrastructure can save installers and IT professionals both time and money when it comes to maintenance, repairs and down time.

### ▶ A properly labelled network installation will:

- **SAVE YOU TIME**

Time invested up front can pay off when it comes time to change or repair a connection down the road.

- **SAVE YOU MONEY**

Implement labelling and help take the guesswork out of maintenance and repairs, while reducing the need for time consuming and costly toning.

- **CREATE CONSISTENCY & FLEXIBILITY**

Labelling helps to ensure consistency across the installation and provide the flexibility to work with different contractors over the life of the network.

### Best practice for network labelling – TIA-606-B

Used throughout the industry, the Telecommunications Industry Association TIA-606-B standard, defines a labelling standard that maps each cable in an installation precisely to the floor, telecom room, and patch panel position or block where the cable terminates. For more information on TIA-606-B visit [www.tiaonline.org](http://www.tiaonline.org).

## DYMO offers a labelling solution for a variety of networking components including:

Wires & Cables

Patch Panels

Servers

Faceplates

Breakers & Modules

Terminal Blocks

### Save time with manufacturer templates

We've created label templates for equipment from Legrand® CommScope®, Leviton® and other leading manufacturers. Just open DYMO ID, choose a template and add text to create labels that fit the equipment perfectly - no measuring required.

## Networking Component Solutions from DYMO

DYMO Rhino™ industrial label makers are designed by installers for installers to help you properly label your network installations and meet all ANSI and TIA-606-B industry labelling standards.

**XTL™ 500**  
kit 1873306

**XTL™ 300**  
single 1873228 |  
kit 1873305

#### XTL All-Purpose and IND Vinyl Labels

Ideal for both indoor and outdoor applications.

- UL recognized as a component to UL 969
- RoHS compliant
- XTL temperature rating: -40°C to +60°C
- IND temperature rating: -40°C to +80°C
- XTL length: 7 m
- IND length: 5.5 m

LABELS

#### Available Colours

#### XTL and IND Heat-Shrink Tube Labels

For high-end cable identification. A 3:1 shrink ratio helps ensure a secure fit on wires and cables.

- UL recognized as a component to UL 224
- Meets MIL-STD-202G, MIL-M-81531 and SAE-DTL 23053/5 (Class 1 & 3)
- RoHS compliant
- XTL temperature rating: Max +125°C
- IND temperature rating: Max +135°C
- XTL length: varied length
- IND length: 1.5 m

#### Available Colours

#### XTL Flexible Cable Wrap and IND Flexible Nylon Labels

Specifically designed for curved surfaces and wire and cable marking.

- UL recognized as a component to UL 969
- RoHS compliant
- XTL temperature rating: -40°C to +60°C
- IND temperature rating: -10°C to +80°C
- XTL length: 5.5 m
- IND length: 3.5 m

#### Available Colours

#### XTL Laminated Wire/Cable Wrap and IND Self-Laminating Labels

Pre-sized wire/cable wraps with laminated overwrap protect printed areas from oil, chemicals, moisture, abrasion and fading.

- XTL Wraps also available in sheet label formats
- UL recognized as a component to UL 969
- RoHS Compliant
- XTL temperature rating: -40°C to +60°C

#### Available Colour

\*Black on yellow offered for IND Heat-Shrink Tube and IND Flexible Nylon labels only

# Pipe Marking

## Marking pipes to the (EC) No 1272/2008 directive

This standard helps to ensure that the information pertaining to a pipe's content, direction of flow, etc. can be quickly seen and identified by anyone within a facility. Elements defined by this standard include the type of information required on pipe markers, as well as the colour, size and placement of the markers.

This reference tool is intended to provide guidance in the creation of (EC) No 1272/2008 directive.

## 3 STEPS TO PROPER PIPE MARKING

### STEP 1 IDENTIFY THE CONTENTS AND FLOW DIRECTION OF THE PIPE

Based on the pipe contents, use the chart to determine the colour of the label and label text that is needed.

### STEP 2 USE PIPE DIAMETER TO DETERMINE LABEL SPECIFICATIONS

The length of pipe marker and the size of the letter height on the marker are determined by the outside diameter of the pipe being labeled. Once the outside diameter of the pipe has been measured, use the chart to identify the size of the marker needed.

### STEP 3 PLACE MARKERS ON PIPE USING THE FOLLOWING GUIDELINES

- Use arrows at one or both ends of the label to indicate flow direction
- Ensure label placement is visible from the point of normal approach
- Place markers adjacent to any branches, walls, ceilings or floors
- Apply labels at intervals sufficient for identification on straight pipe runs (approx. 7 m)

### 1 MATERIAL PROPERTIES

<b>FIRE QUENCHING</b>	White on Red
<b>TOXIC &amp; CORROSIVE</b>	Black on Orange
<b>FLAMMABLE</b>	Black on Yellow
<b>OTHER WATER</b>	White on Green
<b>COMPRESSED AIR</b>	White on Blue
<b>COMBUSTIBLE</b>	White on Brown
<b>DEFINED BY USER</b>	White on Black
<b>DEFINED BY USER</b>	White on Purple
<b>DEFINED BY USER</b>	White on Gray
<b>DEFINED BY USER</b>	Black on White

### EXAMPLE

→	<b>SPRINKLER WATER</b>	→
→	<b>NITRIC ACID</b>	→
→	<b>HYDROGEN</b>	→
→	<b>BOILER WATER</b>	→
→	<b>COMPRESSED AIR</b>	→
→	<b>ACETIC ACID</b>	→
→	<b>DEFINED BY USER</b>	→
→	<b>DEFINED BY USER</b>	→
→	<b>DEFINED BY USER</b>	→
→	<b>DEFINED BY USER</b>	→

### 2 PIPE MARKER SIZE CHART

Outside Pipe Diameter	Minimum Label Length	Minimum Letter Height
19-32 mm	200 mm	13 mm
38-51 mm	200 mm	19 mm
64-150 mm	300 mm	32 mm
200-250 mm	600 mm	64 mm
> 250 mm	800 mm	89 mm

## Pipe Marking Solutions from DYMO

Designed based on input from professionals, DYMO industrial labellers and labels are tough, affordable and long-lasting. They're loaded with convenient features that speed up your productivity – and help you save time and money every day.

# Pro AV/Security

## Labelling for Pro AV/Security.

Tasked with the installation and maintenance of communications infrastructures, audiovisual and security professionals are managing many components. Everything from sound boards to video, lighting, and security systems are moving from analog to digital at a rapid pace. As this happens, the practice of labelling and implementing labelling standards like TIA-606-B can help to speed system maintenance and reduce down time.

### ▶ A properly labelled installation will:

- **SAVE YOU TIME**

Time invested up front can pay off when it comes time to change or repair a connection down the road.

- **SAVE YOU MONEY**

Implement labelling and help take the guesswork out of maintenance and repairs.

- **CREATE CONSISTENCY & FLEXIBILITY**

Labelling helps to ensure consistency across the installation and provides the flexibility to work with different contractors over the life of the installation.

## DYMO offers labelling solutions for a variety of needs including:

Cameras

Cables & Wires

Sound Board

Components

Faceplates

Patch Panels

### Best practice for network labelling – TIA-606-B

Used throughout the industry, the Telecommunications Industry Association TIA-606-B standard, defines a labelling standard that maps each cable in an installation precisely to the floor, telecom room, and patch panel position or block where the cable terminates. For more information on TIA-606-B visit [www.tiaonline.org](http://www.tiaonline.org).

# Retail

## The right label makes a big difference.

In a retail environment it is important to ensure that employees and patrons can find what they're looking for. Labelling is a cost-effective way to organise and identify items so they can be found quickly and easily. From barcode labels that capture product and pricing information to inventory labels and file folder labels for the back office, DYMO can provide a solution to meet the needs of any operation.

### Some ways in which labelling can be used include:

- **BARCODING**

Use barcode labels with automated inventory and POS systems to help streamline manual input, increase productivity and reduce errors.

- **STOCK/INVENTORY IDENTIFICATION**

Printed labels help workers easily identify the location of goods and minimize out-of-stock issues.

- **GENERAL OFFICE IDENTIFICATION**

Label files and binders to help make bookkeeping easy and efficient.

### Additional ideas for labelling include:

Files & Storage

Binders

Shelving

Inventory

Food Storage

Server Station

Work Flow

Product

## Retail Solutions from DYMO

Keep any operations organised, efficient and under control with DYMO® LabelWriter™, LabelManager™ and MobileLabeler™

- DYMO offers easy-to-use products with an intuitive interface to help you label quickly and easily
- Create customized labels with many fonts, styles, graphics, barcodes and more
- Labels are available in many different sizes and colours suited for every application in the office

### D1 Labels

– "Easy Peel" backing ensures trouble-free application

### D1 Standard Labels

- For use in LabelManager™ labellers and LabelWriter™ 450 Duo label printer
- Ideal for indoor and outdoor applications
- Available in 12 different colours and 5 widths
- Length : 7 mm

### D1 Durable Labels

- Labels that last on demanding surfaces
- For use in LabelManager™ labellers, not recommended with LabelManager™ 500TS, LabelManager™ Wireless PnP or LabelWriter™ 450 Duo label printer.
  - Indoor/outdoor water-resistant design
  - UV light, heat, humidity, household cleaners, near freezing conditions resistant
  - Temperature rating: -40°C to +80°C
  - Available in 12 mm

### LW Labels

#### LW Standard Labels

- For use in LabelWriter™ label printers
- White paper labels, ideal for indoor application
- Packaged in rolls

#### LW Durable Labels

- Labels that last in demanding surfaces
- For use in LabelWriter™ labellers, not recommended with LabelWriter™ 450 Duo
  - stays stuck to paper, plastic, metal, wood, glass
  - protective coating prevents peeling from moisture, acetone, alcohol and common cleaners
  - withstands damp conditions up to 85% humidity
  - Temperature rating: -18°C to +50°C

# Food Service

## The right label makes a big difference.

In a food service environment it is important to ensure that shop owners, employees and consumers can find what they're looking for. Labelling is a cost-effective way to organise and identify items so they can be found quickly and easily. From barcode labels that capture product and pricing information to inventory labels and file folder labels for the back office, DYMO can provide a solution to meet the needs of any operation.

### Some ways in which labelling can be used include:

- **COLOUR CODING**

Help organise an operation and prevent cross-contamination with coloured labels. DYMO offers a variety of durable, coloured labels that can aid in implementing an HACCP\* colour-coding systems.

- **BARCODING**

Use barcode labels with automated inventory and POS systems to help streamline manual input, increase productivity and reduce errors.

- **STOCK/INVENTORY IDENTIFICATION**

Printed labels help workers easily identify the location of goods and minimize out-of-stock issues.

- **GENERAL OFFICE IDENTIFICATION**

Label files and binders to help make bookkeeping easy and efficient.

### Hazard Analysis Critical Control Point (HACCP) Standardized Colour System\*

# Visitor Management

## What is visitor management?

Visitor management refers to the process of tracking visitors who enter and exit a facility, creating a record of the building's use. During the visitor check-in process information is often collected from each visitor including name, reason for their visit and the date and time of check-in and check-out.

## Types of Visitor Management Systems

There are two common methods for facilitating visitor management systems – pen and paper, and electronic. The pen and paper method often utilizes a log book where visitors can sign in and handwrite the required information for check-in and check-out.

An electronic visitor management system uses a computer to record and validate visitor information. Some advantages to this type of system are that they can store a digital record of all check-in/check-out activity, allow for validation of visitor ID against internal and external databases, and enable photo ID printing on name badges for an added level of security.

## Common locations for visitor management include:

- Schools
- Office Buildings
- Manufacturing
- Healthcare Facilities
- Daycare
- Government Buildings
- Museums
- Churches
- Events

When integrated with a facility's electronic visitor management process, **DYMO LabelWriter™** label printers help to provide quick, on-demand printing of name badges to help support the visitor check-in process.

### Print any badge you need:

Simple visitor-operated badge printing solutions

### DYMO Software Development Kit

With the DYMO Software Developer Kit, free downloadable via [Dymo.com](http://Dymo.com), for the LabelWriter™ 450 series, you can integrate the badge printing feature in any of your Windows, Mac® or Linux applications. It offers fully integrated printer control so you don't have to worry about paper type selection, printer resolutions, margins, custom page sizes, and all the other complexities of printing.

The information contained in this Visitor Management Guide is being provided for general information purposes only and compatibility with the software applications is based on operating systems that are subject to change.

# LabelManager™, Rhino™ and XTL™ Label Makers

A	Black on Yellow	1805444	18058	18056	18054	18052

\* Only compatible with Rhino™ labellers

## XTL ALL-PURPOSE VINYL

From textured surfaces to cables, vinyl labels are ideal for almost any labelling application. Vinyl offers moisture, chemical and UV resistance, making it ideal for labelling both indoors and outdoors. Available in sizes from 12 mm to 54 mm and in a wide range of colours that fit with OSHA, ANSI and ISO colour standards to enhance workplace communication and safety.

UL recognized as a component to UL 969, RoHS compliant

**Length: 7 m**

Temperature Rating: -40°C to +60°C

A Black on Grey	1868801	1868802	1868803	1868804	1868805

## XTL FLEXIBLE CABLE WRAP

For labelling wires, cables and rounded surfaces. Constructed of durable, flexible nylon material designed to conform and stick. Tear-proof material resists damage when pulled through tight spaces or conduits.

UL recognized as a component to UL 969, RoHS compliant

**Length: 5.49 m**

Temperature Rating: -40°C to +60°C

Tape Colour on Label Colour	12 mm	19 mm	24 mm
A Black on White	1868806	1868807	1868808

## XTL HEAT-SHRINK TUBE (CONTINUOUS & PRE-SIZED)

DYMO XTL™ label makers print directly on continuous or pre-sized Heat-Shrink Tubes provide insulation when shrunk down and ensure a secure fit on wires and cables with a 3:1 shrink ratio. Constructed of flame-retardant polyolefin sleeves and tested to industry standards.

UL recognized as a component to UL 224. Meets MIL-M-81531, MIL-STD-202G, SAE-DTL-23053/5 (Class 1 & 3)

**XTL Heat-Shrink Tube (Continuous)**

**Length: 6 mm, 12 mm, 24 mm : 2.7 m**

**54 mm : 1.8 m**

Temperature Rating: Max +125°C

Tape Colour on Label Colour	6 mm	12 mm	24 mm	54 mm
A Black on White	1868809	1868810	1868811	1868812

## XTL PERMANENT FLAT SURFACE

For labelling panels, blocks, faceplates, shelves, bins, beams and more, Permanent Flat Surface labels have a glossy finish that leaves your work looking professional. Constructed of polyester material and coated with industrial-grade adhesive. Available in smaller widths down to 6 mm to fit in tight spaces.

UL recognized as a component to UL 969, RoHS compliant

**Length: 9 m**

Temperature Rating: -40°C to +60°C

Tape Colour on Label Colour	6 mm	9 mm	12 mm

### XTL LAMINATED WIRE/CABLE WRAP

Pre-sized wire/cable wraps with laminated overwrap protect printed areas from oil, chemicals, moisture, abrasion and fading. Improve your productivity by printing batches of cable wraps at once. Simply take them with you, peel and apply. Also available in sheet label formats for high-volume installations.

**UL recognized as a component to UL 969, RoHS compliant**  
Temperature Rating: -40°C to +60°C

### Included with all DYMO® LabelWriter™ label printers:

Each LabelWriter™ printer comes with the latest DYMO® Label™ software that makes creating customized labels easy with text, images, pictures, date & time, serial numbers, and 20 different types of barcodes.

### Environmentally friendly

All LabelWriter™ printers have automatic sleep mode – to conserve energy and reduce your costs.

### Create your own desktop mailing solution

Combine any LabelWriter™ label printer with any DYMO® USB digital postal or shipping scale to create a complete mailing or shipping system.

# Digital Postal Scales

Weigh envelopes and packages for precise postage, every time.

## Mailing & Shipping Scales

DYMO offers a full range of scales<sup>1,2</sup> for all of your mailing and shipping needs. From our compact digital mailing scales to the highest-capacity digital USB scale, we have the right product to match your mailing and shipping needs. The accurate and digital DYMO postal scales will save you trips to the Post Office or mailroom – and keep you from spending more than you need to spend on postage.

And with the portable shipping scales you'll save time, money – and just maybe your back as they allow you to carry the scale to heavy packages, not vice-versa.

# Software, Integration & Networking

Make labelling part of your seamless work process.

## DYMO ID® Software

**DYMO ID - achieving labelling simplicity just got easier.**

- Consistent software design between DYMO ID software and XTL™ label makers make it easy to transition between PC and label printer
- Quickly import data to create a series of labels in just a few steps to eliminate manual entry, saving time and increasing productivity
- Over 200 pre-loaded symbols and images - or simply add a custom image to enhance communication and meet industry standards
- Quick customization and upgrades - Simply plug your XTL™ label maker into a PC and use DYMO ID software to customize your preferences and keep it up to date
- Print labels that last on demanding surfaces with LW Durable Labels on the LabelWriter 4XL
- Works with XTL and XTL labels, and LabelWriter 4XL and LW Industrial Durables Labels

## DYMO Label™ v.8 Software

**Great labelling results with a lot less work.**

- Available for use with every LabelWriter and PC or Mac®-compatible LabelManager™ label maker
- Choose from over 100 pre-designed label layouts, then customize with your company logo or graphics
- Built-in address book: Print labels straight from your contact list or from your Outlook® contacts or Mac® Address Book
- Multi application: Create labels directly from Microsoft® Word, Outlook®, Excel® and CardScan® without retyping your text
- QuickPrint widget: Print a single label quickly and easily

## DYMO Software Development Kits

**Build DYMO technology into your solutions.**

- Easily and quickly integrate DYMO label printing into any Windows®, Mac®, Linux® system or integrate card scanning into any Windows® system.
- Get regular updates from our technical team on the DYMO Developer's blog: <http://developers.dymo.com>

## LabelWriter® Print Server

**Network adapter for DYMO® LabelWriter™ label printers.**

- Simple installation: Connects via USB, ethernet cable and AC power source
- Connects everyone on your local network
- Software available in English, French, German, Dutch and Italian

# Software, Integration & Networking

Make labelling part of your seamless work process.

## DYMO Connect app

### DYMO Connect Mobile Application

**Connect. Create. Print.**

- Works with iOS® and Android™ smartphones and tablets for an intuitive labelling experience
- Design labels using borders, styles, and popular Google® and Apple® fonts
- Reduce errors with spellcheck and save time with voice-to-text
- Customize labels with pictures from the Image Gallery on your smartphone or tablet
- Easily access Bluetooth® enabled DYMO label makers
