High Impact Chisels

The Standard in Edge Retention

The IRWIN® Marples® bevel edge chisel lineup extends the brand's best-in-class reputation for quality, design and ergonomics. In depth consumer research identified that while all chisel users require the same sharp edge and high-quality hardened steel blade, there are three distinct users including fine woodworking, construction and high-impact. IRWIN now offers a full range of chisels specifically engineered for each user. From builders and remodelers, to fine woodworkers and carpenters, IRWIN's new program has a chisel for every user need.

High Impact Chisels

The High Impact Chisel features a fully-forged core for unbeatable durability and strength while still providing the same high quality cutting performance. With an extra-large strike cap to withstand hammer pounding at multiple angles and a ProTouch™ over-mold grip for added ergonomic comfort, the High Impact Chisel is constructed with a split-proof acetate handle for reinforced handle toughness.

CHISELS

HIGH IMPACT CHISEL FEATURES

1. Fully-forged steel core for unbeatable strength and durability
2. Extra-large strike cap withstands repetitive hammer strikes and can be hit from multiple angles
3. Split-proof acetate handle for reinforced toughness
4. High carbon steel blade for superior performance and edge retention

Construction Chisels

The Construction Chisel is an all-purpose bevel-edge chisel that also features an upgraded hardened and tempered high carbon steel blade to make jobs like carving out a recess for a hinge or strike plate easy and accurate. With its ProTouch™ grip, the Construction Chisel is comfortable to hold and its oversized steel strike cap can withstand repetitive hammer strikes.

**CONSTRUCTION CHISEL
FEATURES**

1. Large strike cap withstands repetitive hammer strikes
2. Ergonomic handle design with ProTouch™ Grip is durable enough to withstand jobsite abuse
3. High carbon steel blade for superior performance and edge retention

Woodworking Chisels

Woodworking Chisels

The Woodworking Chisel features a high carbon steel blade, hardened to 58-61 HRC for improved sharpness and edge retention. Designed to be used with a wooden mallet or the palm of the hand for traditional fine woodworking applications, this bevel-edge chisel is structured with a slim, ergonomic handle for added control, precision and comfort.

WOODWORKING CHISEL FEATURES

1. Slim, contoured handle for added control, precision and comfort
2. Designed for use with a wooden mallet or the palm of the hand
3. High carbon steel blade for superior performance and edge retention
