

Digital Programmable Gate Driver Programming Instructions

Software Required

Item Name	Link
MPLAB X IPE (Integrated Programming Environment)	Download

Hardware Required

Part Number	Item Name	Description
ASBK-014	Device Programmer	PICKit 4 with Adapter Board and Cables

Procedure

- 1. Connect the MPLAB PICKit 4 to the computer using the supplied Micro-B USB cable.
- 2. Plug the ASB-014 Adapter Board into the PICKit 4 Programmer.
- 3. Connect the Adapter Board to the Gate Driver using the appropriate cables:

- 4. Supply power to the Gate Driver by using only one of the methods below:
 - a. External supply provided by user
 - b. Power Target from PICKit 4 (Settings>Advanced>Power)

Note: Do not use both methods at the same time. This risks damage to the device.

- 5. Open the MPLABX IPE software.
- 6. Select the appropriate PIC device to program and click Apply.

2ASC-12A1HP	PIC16F1776
2ASC-17A1HP	PIC16F1776
62EM1	PIC16F1773

- 7. Click the Connect button to connect the PICKit4.
- 8. Use Browse to load the .hex programming file.
- 9. Click on Program to flash the device.
